The USPTO has waived the requirement under 37 C.F.R. §1.98(a)(2)(i) for submitting a copy of each cited U.S. patent and each U.S. patent application publication for all U.S. patent applications filed after June 30, 2003, and for all international applications that have entered the national stage under 35 U.S.C. §371 after June 30, 2003. 1273 TMOG 55 (August 5, 2003). As this continuation application is being filed after June 30, 2003, Applicant has not submitted copies of the U.S. patents that are cited on form PTO/SB/08A enclosed herewith.

In addition, “A copy of any patent, publication, pending United States application or other information, as specified in paragraph (a) of this section, listed in an information disclosure statement is required to be provided, even if the patent, publication, pending United States application or other information was previously submitted to or cited by the Office in an earlier application, unless: (1) the earlier application is properly identified in the information disclosure statement and is relied on for an earlier effective filing date under 35 U.S.C. §120 and; (2) the information disclosure statement submitted in the earlier application complies with paragraph (a) through (c) of this section.” 37 C.F.R. §1.98(d). The present continuation application relies on the parent application, United States Serial No. 09/941,804, for an earlier effective filing date under 35 U.S.C. §120. The art being presently cited includes art which has been cited by the United States Patent and Trademark Office or has previously been submitted to the United States Patent and Trademark Office by Applicant during the prosecution of the parent application. The art cited in the parent application can be found in the file wrapper of the parent application. Therefore, copies of the United States patent documents cited are not enclosed herewith.

The information cited in the parent application was provided in the English language, with the exception of JP 6-322,848 and JP 6-322,849. These two Japanese references were cited by the Examiner in the parent application, but were not applied against the claims. Applicant has included English language abstracts for JP 6-322,848 and JP 6-322,849 herewith.

The referenced art is being cited for the express purpose of providing the Patent and Trademark Office with the opportunity to make an evaluation and to arrive at an independent assessment of materiality of each document, if any, to the examination of this application. The Examiner is requested to disregard any marking on the copies of the cited documents. Markings on the references should not be regarded as necessarily pointing out the portions of the subject documents regarded by the Applicants as relevant to the subject application. Applicant respectfully requests that the information cited be made of record in the subject case.

**IDENTIFICATION OF TIME OF FILING THE
INFORMATION DISCLOSURE STATEMENT**

The Information Disclosure Statement submitted herewith is being filed contemporaneously with the filing of the present continuation application. No certification or fee is due with this filing of the Information Disclosure Statement. 37 C.F.R. §1.97(b)(1).

Respectfully submitted,
